CLOUD SOLUTIONS AFRICA CONFERENCE PROGRAMME 2024

DAY 1	: 16 JULY	DAY 2	: 17 JULY
08:30	Registration and coffee	09:25	Opening Remarks
09:25	Opening Remarks	THEME 3:	Bringing the Cloud to the Edge
09:30	Plenary Keynote and Opening remarks	09:30	Unlocking Africa's Potential - Defining a Cloud Ecosystem
	Andile Ngcaba, President, Digital Council Africa	03.50	to Empower Tomorrow's Africa
10:00 THEME 1:	Keynote Address		Charly Bahous, CEO, Touchnet Telecommunications
	Sandile Duble, MD South Africa, Equinix		- Zadara Cloud Stategy into Africa
	The Role of the CIO and Building the Business Case		- The Game Changer - Edge Cloud
10:30	Discussion: The Importance of the CIO in Driving		- How do we enter the market - Enabling the African continent
10.00	Digital Success		and digital transformation
	Moderator: Stephane Duproz, Data Centre Consultant	10:00	Panel Session: Regional Approaches to Edge Cloud
	Panellists	10.00	Moderator: Abyda Aziz, Head of Operations, Touchnet
	Abdul Baba, CIO, Infrastructure South Africa		Telecommunications
	Duncan Eric Ogonji, CIO, Kenya Vision		Panellists:
	- Evolving business demands - why CIO's are forward facing		Charly Bahous, CEO, Touchnet Telecommunications
	- Translating the success of Cloud solutions into business		Confirmed Touchnet Telecommunications Regional Partners
	opportunities	THEME 4:	The Wider Cloud Context and Considerations
	- The role of CIO's and the Cloud in future proofing	10:30	Case Study - Session Reserved for BCX Consulting
	businesses	11:00	
11:40	EXHIBITION VIEWING	11:00	Data Protection and security in the new digital age
12:00	CASE STUDY: Migrating to the Cloud		- Understanding the evolution of data protection
12.00	Yen Choi. CEO. Onix Data Centres		- Why Cloud solutions are safe solutions
12:30	Panel Discussion: The Strategic Case for Cloud Investment	11:30	 How to stay abreast of regulations and security challenges COFFEE BREAK
12.00	Speakers:	11:50	Panel session: Speed Data'ing - How to choose the right
	Sandile Dube, Managing Director, South Africa, Equinix Output Description:	11.50	data centre
	Mogomotsi Mokoka, CIO, Independent Communications		Angus Hay, Regional Executive, South Africa,
	Authority of South Africa		Africa Data Centres
	• Mtho Xulu, President, South African Chamber of Commerce		James Byaruhanga, MD, Roke Cloud
	and Industry		- Identifying your needs and objectives
	Andile Ngcaba, President, Digital Council Africa		- Market response to evolving drivers and requirements
	- What is driving the adoption of cloud in South Africa		- Co-location versus Cloud verses Edge as options
	- How does South Africa compare to other nations in terms	12:20	Fireside Chat: Building an Infrastructure to Support
	of cloud adoption	12.20	Business Continuity
	- Future thoughts and comments on the cloud industry		Speakers:
13:00	LUNCH & EXHIBITION VIEWING		Nabeel Mahmood, Managing Director, Nomad Futurist
THEME 2:	Cloud Architecture, Innovation and Evolving Requirements		Quin Jernigan, Manager, Workforce/Economic
14:00	Cloud Hosting Customisation - the smart way to meet		Development, AWS
	demands and expectations		- 'It takes a village' mentality
	Reserved for Digital Parks Africa		- Where Cloud and Digital Transformation will lend a
14:30	Rethinking Traditional Cloud Models		helping hand
1 1.00	Julie Irmes, Head of Sales, Touchnet Telecommunications		- Matching future demands to business objectives
	- The traditional approach - an overview	13:00	LUNCH & EXHIBITION VIEWING
	- Considerations for breaking the cloud mould	13:40	SLAs: The foundation of any digital transformation project
	Considerations for breaking the dieda media	10.40	SEAS. The foundation of any digital transformation project
	- Future proofing		· -
15:00	- Future proofing		- Defining your SLA requirements internally
15:00	Innovation in Cloud Architectures Consoleconnect		Defining your SLA requirements internallyTranslating your requirements to build effective SLA's
15:00	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager,		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA
15:00	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager, Console Connect	14:10	 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success
15:00	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager, Console Connect - Adapting your roadmap to meet changing demands	14:10	 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks
15:00	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager, Console Connect - Adapting your roadmap to meet changing demands - Scalability and flexibility - understanding requirements	14:10	 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber
	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager, Console Connect - Adapting your roadmap to meet changing demands - Scalability and flexibility - understanding requirements - Hybrid versus edge	14:10	- Defining your SLA requirements internally - Translating your requirements to build effective SLA's - Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks - Understanding how not to compromise on your cyber security measures
15:30	Innovation in Cloud Architectures • Lisa Wright, Ecosystem Partner Manager, Console Connect - Adapting your roadmap to meet changing demands - Scalability and flexibility - understanding requirements - Hybrid versus edge COFFEE BREAK	14:10	- Defining your SLA requirements internally - Translating your requirements to build effective SLA's - Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks - Understanding how not to compromise on your cyber security measures - Working with clients to deliver their security expectations
	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of AI in the Digital Evolution	14:10	- Defining your SLA requirements internally - Translating your requirements to build effective SLA's - Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks - Understanding how not to compromise on your cyber security measures - Working with clients to deliver their security expectations - Integrating solutions that can adapt to changing
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton		- Defining your SLA requirements internally - Translating your requirements to build effective SLA's - Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks - Understanding how not to compromise on your cyber security measures - Working with clients to deliver their security expectations - Integrating solutions that can adapt to changing requirements and regulations
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting	14:10	 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists:		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets
15:30	Innovation in Cloud Architectures * Lisa Wright, Ecosystem Partner Manager, Console Connect - Adapting your roadmap to meet changing demands - Scalability and flexibility - understanding requirements - Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: * Sipho Mtombeni, Government Affairs and Public Policy		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets Utilising more than one IOT application to drive benefits
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: Sipho Mtombeni, Government Affairs and Public Policy Manager, Google		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets Utilising more than one IOT application to drive benefits Bolstering your financials whilst reducing CAPEX
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: Sipho Mtombeni, Government Affairs and Public Policy Manager, Google Representative from Huawei		- Defining your SLA requirements internally - Translating your requirements to build effective SLA's - Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks - Understanding how not to compromise on your cyber security measures - Working with clients to deliver their security expectations - Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets - Utilising more than one IOT application to drive benefits - Bolstering your financials whilst reducing CAPEX and OPEX
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: Sipho Mtombeni, Government Affairs and Public Policy Manager, Google Representative from Huawei The current status and uptake of Al		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets Utilising more than one IOT application to drive benefits Bolstering your financials whilst reducing CAPEX and OPEX Moulding IOT applications to enhance business operations
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: Sipho Mtombeni, Government Affairs and Public Policy Manager, Google Representative from Huawei The current status and uptake of Al Building patterns and strategies - how, why and who?	14:40	 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets Utilising more than one IOT application to drive benefits Bolstering your financials whilst reducing CAPEX and OPEX Moulding IOT applications to enhance business operations at the front end
15:30	Innovation in Cloud Architectures Lisa Wright, Ecosystem Partner Manager, Console Connect Adapting your roadmap to meet changing demands Scalability and flexibility - understanding requirements Hybrid versus edge COFFEE BREAK Panel session: The True Role of Al in the Digital Evolution Moderator: Mark Acton, Independent Consultant, Acton Consulting Panellists: Sipho Mtombeni, Government Affairs and Public Policy Manager, Google Representative from Huawei The current status and uptake of Al		 Defining your SLA requirements internally Translating your requirements to build effective SLA's Collaboration and partnership - the only way to achieve SLA success Cyber security and the Cloud: Ironing out the kinks Understanding how not to compromise on your cyber security measures Working with clients to deliver their security expectations Integrating solutions that can adapt to changing requirements and regulations IOT and the Future: The true benefits of migrating your assets Utilising more than one IOT application to drive benefits Bolstering your financials whilst reducing CAPEX and OPEX Moulding IOT applications to enhance business operations
